Experience

Kenja Corporation

(Jul 2017 - ongoing)

- **CTO/Lead Front-End Developer**
Responsible for the technical side of product development, project management and planning. I have the final word in all things technical. I'm directly managing a team of software developers working with various technologies (PHP, Zend, Laravel, Redis, Backbone.js, Node.js, React, Vue) while also helping to contribute code.
- **CEO (Kenja Poland)**
Responsible for management of the Polish branch and all duties associated with the CEO title.

IBM

(Jan 2017 - Jul 2017)

- **Front End Developer (IBM SPSS Statistics)**
I was working at this position building the core foundation of new IBM SPSS Statistics - a product with over 50 years of history, now getting a fresh coat of UI paint. We utilized React.js, Redux, Webpack, Electron as well as ES6 with Babel transpiler for extra ES Features. As with every IBM project it's developed in an Agile SCRUM environment. We utilized Travis, Jenkins and GHE in our project.
- **Front End Developer (Watson Data Platform)**
At this position I was assigned to UI development of several microservices for the IBM Data Science Experience platform, which is a powerful analytics tool for data scientists and data engineers. The stack composed of React.js, Redux, Webpack, Node.js and of course ES6 w/ Babel.

Kenja Corporation

(Oct 2014 - Nov 2016)

- **Full-Stack Developer**
Responsible for development in Backbone/JavaScript, Zend Framework/PHP Java/Android/Google Glass. Working on an innovative CMS for project and task management - Kenja Rooms, similar to JIRA. Worked on Kenja Meeting - a corporate and collaborative response to Hangouts and Slack (mostly JavaScript and Universal Windows Platform - that is Windows 10 and Xbox One). Developed an inventory system around Google Glass for Neovia Logistics in Japan.

Ashenvale Digital

(Feb 2014 - Jul 2015)

- **CEO/Founder**
Company owner. Responsible for development, and managing tasks between freelancers. Most of the work was being done with C#/NET, PHP/Laravel and C++/Unreal Engine 4.

Omega323

(Jun 2012 - Oct 2014)

- **Lead Full-Stack Developer**

Responsible for managing a team of software developers and core product development. Most of the work was being done in C#.NET/Unity, PHP/Kohana/Laravel, GML, HTML5/ JavaScript/AngularJS and C++/Unreal Engine 4. Worked on projects involving CAD and point cloud rendering in 3D with C++. Developed several game projects for O2.pl (Android/iOS), websites for companies like Sony, Ziaja and 2 oil rig and crane simulations in Unreal Engine 4 for oil companies.

JECSE Company

(Sep 2010 - Jun 2012)

- **Full-Stack Developer**

Responsible for software development and product design. Most of the work was being done with PHP/Kohana and JavaScript. Developed a large CRM platform and order system for airport taxi company located in Florida, USA.

G Data Software

(Mar 2010 - Jun 2012)

- **Full-Stack Developer**

Responsible for website development in PHP/Kohana and JavaScript. Developed several internal tools and official website for Polish branch of G Data Software.

Various freelance contracts

(Jun 2008 - Mar 2010)

PHP, Zend, Kohana, JavaScript, jQuery, Backbone, C++, Source Engine, SDL

Education

Zespół Szkół nr. 1 im. Komisji Edukacji Narodowej w Szczecinku

(Sep 2010 - Jun 2013)

High School/IT Technical College

- Honored alumnus
- Student council member: finance
- Privately schooled
